

ECHEM Building Area

Successfully completed in 15/7/2011 the paving of the roads surrounding building and the parking area, that under supervision of the ASPPC crew and implemented by PETROJET crew using about 2000 tons of ASPPC's Cold-Mix to cover area about 18895m².

ASPPC is glad to announce that the mission have passed all the required standard specification tests (ASTM) for Cold-Mix, which have been done by major middle east labs (Commibassal and Horema) under supervision of Prof. Gomaa Mousa (Roads and Airports Engineering, Alexandria University).
